#### **Review of Operations**

During the period under review our sales have increased and despite of all the economic obstacles and political situation in the country and slum in international market and increase in financial cost the management is quite happy to earn net profit after tax Rs. 41.245 Million. The management has done well in reducing and controlling the manufacturing cost to improve the Gross Profit Ratio. The increase in financial cost is due to increase in Kibor rate.

The market overview and future outlook appears to be quite challenging due to international market scenario and local conditions but your management is quite confident to overcome all these obstacles by the grace of God and hard work of management, staff and workers.

The Board of Directors once again would like to take this opportunity to thank our customers, suppliers and bankers for their continued support and cooperation towards the progress of the company. We hope that this support would continue in future as sell.

We would also like to thank our dedicated and talented team of executives, staff and workers for the hard work put in towards improving the company's performance. We expect continued effort from our employees to achieve better result in the remaining period of three months.
